Subject: Procurement Protocols for Capital Projects

Attention Mayor Tom Sidney. Reeve Peter Emon, Councillor Kyle Cybulski, Councillor Andrew Dick, Councillor John McDonald, Councillor Clint McWhirter, Jason Legris.

Tonight a friend of mine shared a Facebook post that was written by Councillor Kyle Cybulski. I then shared it to Facebook and selected Public.

To say I am frustrated is putting it mildly. Does the Town of Renfrew not follow Procurement protocols. Obviously, Procurement procedures need to be revised and adhered to. With the Mateway investigation being completed and no one facing any consequences, does this set a low standard for all present and upcoming capital expenditures?

I am totally bewildered that several new projects, and in particular Stevenson Crescent, have doubled. We have very educated staff in Management positions, do they not review tenders with a fine tooth comb. Are there not penalties in place that put the extra hidden costs on the company who won the tender contract.

Also, with the huge increases in taxes (my taxes have went up \$1400 in two years) I would hope that the requests from the two CIP applicants to waiver their taxes is refused by Council. Tax payers can't afford to pay their own, let alone subsidize others

I would love to receive a response from each of you individually, either by email listed below, or by phone or text [REDACTED] (home). [REDACTED]. Hopefully, before tomorrow night's Council meeting.

[REDACTED]

Thank you in advance for your anticipated response.

Rose Curley

Subject: Mataway

I am writing with a heavy heart in response to Councillor Cybulskis Facebook article.

As a tax payer in this town I am at a loss that nothing further being done in this issue , it's a disgrace to the town and its residents. This council was to keep tabs on all projects also and not let this happen again and now there is like 2 or 3 projects already over budget ? How can this happen it's a joke . Answers need to happen . A public forum needs to happen where we the citizens of Renfrew can ask the questions not the questions the town wants to answer but our the ratepayers questions. And as far as any tax breaks to company's Renfrew better give me a tax break before any other entity. I will hopefully get to council meeting tonight but this is making my blood boil. I fear so many will leave Renfrew as the no longer can afford to live here and it will just get worse. I'm very informed I either watch or go to council meeting s. Sad sad day

A very concerned tax payer
